

Workout app test

TEST DESCRIPTION	TEST DESIGNED BY	TEST EXECUTED BY	TEST NUMBER	TEST DATE
Testing the app for any bugs	Dan Craig	Dan Craig	1	21/12/2023

Test	Test step	Test description and inputs	EXPECTED RESULTS	ACTUAL RESULTS	PASS / FAIL
Add new exercise user inputs	New exercise	Puts number in	Asks user again	Asks user again	PASS
		Puts words/letters in	Accepts	Accepts	PASS
		Puts words/letters/numbers in	asks user again	asks user again	PASS
		Puts !@#	Accepts	Accepts	PASS
Add new weight user inputs	New weight	Puts number in	asks user again	asks user again	PASS
		Puts words/letters in	asks user again	asks user again	PASS
		Puts words/letters/numbers in	asks user again	asks user again	PASS
		Puts !@#	asks user again	asks user again	PASS
		number + kg	Accepts	Accepts	PASS
Add new set user inputs	New set	Puts number in	Accepts	Accepts	PASS
		Puts words/letters in	asks user again	asks user again	PASS
		Puts words/letters/numbers in	asks user again	asks user again	PASS
		Puts !@#	asks user again	asks user again	PASS
Add new reps user inputs	New reps	Puts number in	Accepts	Accepts	PASS
		Puts words/letters in	asks user again	asks user again	PASS
		Puts words/letters/numbers in	asks user again	asks user again	PASS
		Puts !@#	asks user again	asks user again	PASS
Update exercise user inputs	Type the exerise you want to update	Puts number in that doesn't match	asks user again	asks user again	PASS
		Puts words/letters in that doesn't match	asks user again	asks user again	PASS
		Puts words/letters/numbers in that doesn't match	asks user again	asks user again	PASS
		Puts !@# that doesn't match	asks user again	asks user again	PASS
		puts exerise that matches	Accepts	Accepts	PASS
Re-type or update exercise		Puts number in that doesn't match	asks user again	asks user again	PASS
		Puts words/letters in that doesn't match	Accepts	Accepts	PASS
		Puts words/letters/numbers in that doesn't match	asks user again	asks user again	PASS
		Puts !@# that doesn't match	Accepts	Accepts	PASS
		puts exerise that matches	Accepts	Accepts	PASS
Re-type or update weight user inputs	New weight	Puts number in	asks user again	asks user again	PASS
		Puts words/letters in	asks user again	asks user again	PASS
		Puts words/letters/numbers in	asks user again	asks user again	PASS
		Puts !@#	asks user again	asks user again	PASS
		number + kg	Accepts	Accepts	PASS
Re-type or update set user inputs	New set	puts weight that matches	Accepts	Accepts	PASS
		Puts number in	Accepts	Accepts	PASS
		Puts words/letters in	asks user again	asks user again	PASS
		Puts words/letters/numbers in	asks user again	asks user again	PASS
Re-type or update reps user inputs	New reps	Puts !@#	asks user again	asks user again	PASS
		puts set that matches	Accepts	Accepts	PASS
		Puts number in	Accepts	Accepts	PASS
		Puts words/letters in	asks user again	asks user again	PASS
User deletes an exercise	delete exercise	Puts words/letters/numbers in	asks user again	asks user again	PASS
		Puts !@#	asks user again	asks user again	PASS
		puts reps that matches	Accepts	Accepts	PASS
View workout history	shows all history logged	Puts matching exercise	Accepts	Accepts	PASS
		Puts random numbers	asks user again	asks user again	PASS
		Puts random letters	asks user again	asks user again	PASS
		Puts random numbers/letters	asks user again	asks user again	PASS
		Puts !@#			
Exit and save	Exit and logs the workout				
		User presses five	Accepts	Accepts	PASS
